

The **Welsh Centre for Professional Pharmacy Education** offers learning and developmental opportunities to both pharmacists and pharmacy technicians in Wales in support of their continuing professional development. We highlight many of the services available to you on the web site which demonstrate our commitment to professional excellence in pharmacy. We encourage you to make the most of our on-line services, and ask for your support and ideas in maximising the use of the WCPPE provisions to meet your learning needs.

We hope you have an enjoyable journey through our web site.
