

Welcome to the Welsh Centre of Pharmacy Professional Education

{jb_quoteright}To motivate and support the pharmacy family, through the provision of learning and development opportunities, to enhance their competence to deliver high quality patient services in Wales{/jb_quoteright}

As you've probably noticed the website looks a little different! It is one of the things that we are trying out as part of some changes at WCPPE.

We recognise that the needs of pharmacists and their support staff has changed and matured in recent years and we are undertaking a programme of development to ensure that our services and the way we deliver them reflect your changing needs. In the forthcoming months we will be doing work on our website, brochure, e-learning platform, branding and how we communicate with you. We have tried to make our site a little more user friendly.

We'll probably have to tweak it a little more... ...so please feel free to be a critical friend and let us know how we are doing.

Cath O'Brien

Director WCPPE
