

Webinar

e-Library for Health

© Welsh Government

Overview

What do you know about the e-Library for Health and how often do you access it?

The NHS Wales e-Library for Health has existed for over 16 years and is managed by NHS Wales Informatics Service (NWIS).

As a result of the establishment of Health Education and Improvement Wales in October 2018 a substantial investment was made to increase the number and type of e-resources available to NHS Wales.

The e-Library provides access to over 2,300 e-Journals, databases, point of care tools, e-learning, guidelines and more. It is accessible to all NHS Wales employees and contract holders from work and home.

Join this webinar to find out how you can use the e-Library and its e-resources for your continuing professional development and how it can support your day-to-day practice irrespective of role and sector of work.

Designed for:

- > All NHS contractors and NHS employees working in any sector of practice.
